The new Gustave Eiffel Reception Room enjoys a location like no other, housed in the monument that symbolizes France to the rest of the world, suspended 57 meters above the ground with stunning, unobstructed views of Paris and the city's most noteworthy sites.

Magnified by the transparency of its facades (which can be covered with interior curtains), a 6.2-meter ceiling, state-of-the-art equipment, a modular stage and contemporary décor, the Gustave Eiffel Room is one of the most striking spaces for holding events in Paris.
An "influenced architecture", designed entirely in diagonals and transparency by the architects Moatti and Rivière, providing an improved experience of the Tower and Paris, respectful of the monument and its history.
The Gustave Eiffel Room’s modular configuration can accommodate up to 300 persons at all types of business events from 9:30 a.m. to 1:00 a.m.

Capacities
Seated dinner: 130 – Conference: 200 – Cocktail: 300

We remind you that the Eiffel Tower is a non-smoking area since February 1st 2007. You will have to make sure that your guests respect this interdiction.
